OUT-CUT THE COMPETITION!

With an unprecedented design that delivers high operator comfort with a faster cut and less down time for effortless cutting applications, we present Carbo Fire cut-off wheels.

www.carbo.com
THE SCIENCE BEHIND THE GRAIN:
Carbo Fire cut-off wheels are composed of 100% of the most advanced ceramic alumina abrasive grain with a special shape for comfort and performance. Guaranteed 7X the life of aluminum oxide wheels and 3X the life of zirconia alumina wheels. The speed of cut is amongst the highest compared to other competitive product in the market.

Carbo Fire cut-off wheels boasts up to 71% better life than the best competitor.*

There is a unique bond system created to hold premium ceramic grain in place until it is efficiently utilized. This bond prevents premature grain release which maximizes the cut-off wheel’s life.

A great choice for stainless steel and carbon steel applications, Carbo Fire cut-off wheels are best used on cutting auto body panels, frame rail, exhaust pipes, clamps and rusted bolts. A faster cut rate allows for quicker turn-around on jobs, and a longer product life means less time spent changing wheels.

*Based on findings from internal testing; 12” cut length on 18 gauge carbon steel sheet, using an air grinder.

“Less pressure, easier and much faster cut than other wheels on the market. I used this with a pneumatic tool and would give this new product an 11 on a scale of 1 to 10!”

the definition of DIFFERENT®
FEATURES & BENEFITS

• Operator comfort with reduced hand fatigue from less cutting vibration
• Less downtime and waste with longer wheel life using fewer wheels
• Require less operator pressure and effort reduces cycle time
• Fewer wheel changes mean speedier turnaround
• Greater productivity

CARBO FIRE 1/32” CUT-OFF WHEEL

• Thinnest, fastest cutting blade
• Much cooler cut
• Allows for a tighter fit
• Excellent for quarter panels

CARBO FIRE 1/16” CUT-OFF WHEEL

• Great for demanding applications
• Cuts bolts, rods and frame rails
• Exceptional, extended work life
