

***SAY GOODBYE TO DUST... AND BREATHE EASIER
WITH CARBORUNDUM CLEANNET DISCS***

Sanding can be dusty and messy. But with Carbo CleanNet sanding discs you can say goodbye to dust for good and say hello to a cleaner, healthier working environment, improved finish and better overall sanding experience. CleanNet discs are a new revolution in sanding featuring a unique open net backing with thousands of holes. This hole structure allows powerful dust removal in any application while maintaining a superior sanding experience.

Patented Carbo Dri-Lube technology improves load resistance and extends product life, saving operators time and money. It also allows the grain to wear evenly allowing for a finer scratch pattern, for faster and more consistent results throughout the product life.

CARBO CLEANNET™

OPTIMIZED DUST EXTRACTION FOR A CLEANER, HEALTHIER ENVIRONMENT

We've answered the demands for a cleaner and safer working environment with CleanNet discs. The open design of the net backing allows dust particles to flow freely through the thousands of tiny holes, creating a virtually dust free sanding environment. Better for your health, better for your application and better for your business!

With a more rigid backing in coarser grits for heavy duty applications, to flexible, lighter weight backing for flexibility on curves and contours, CleanNet discs will make your job faster, cleaner and more efficient.

* Non-Stock - please allow 4-6 week lead time. Contact your Carborundum Representative for more information on additional grit sizes. Visit our website at Carbo.com

FEATURES AND BENEFITS

- Net matrix backing contains thousands of tiny holes
- Powerful dust extraction virtually eliminates dust created by sanding operations
- Allows for a cleaner, healthier working environment
- Reduces clean up time - a welcome benefit for any busy sander!
- Carbo Dri-Lube technology is applied to the abrasive grains
- Improves load resistance for a consistent cut and extended product life
- Optimizes productivity and value for money
- Offers a better, faster finish with finer scratch pattern
- Grip-on backing with no designated hole pattern
- Fast and easy disc changover - just apply and go!
- Can be used on many materials, on machine, or by hand on flat or contoured surfaces
- Open structure and premium resin bond system
- Can be used wet or dry depending on your application
