

MINI FLAP DISCS REACHING IN IS NOW SO EASY

- An increasingly diverse workforce is demanding smaller, ergonomically friendly tools that require less effort, while delivering better results.
- Save time, labor, and money. Eliminate the conventional 2-step grinding/finishing process of depressed center wheels and fiber discs.
- Test anywhere a quick-change disc is used; mini flap discs provide longer life.

Applications:

- Stock Removal
- Deburring/Deflashing
- Blending/Finishing
- Edge Chamfering
- Weld Blending

CARBORUNDUM

KEY ACCOUNTS

- Plate steel/structural steel
- Civil/construction/military equipment
- Propane tanks
- Farm equipment

FEATURES & BENEFITS

- High performance zirconia alumina abrasive provides maximum cut rate and life
- Layered flaps wear away evenly, producing a high quality and consistent finish
- 2" and 3" diameter discs reach into tight areas while maintaining required cut and life
- TS (Type II) and TR (Type III) easy on, easy off attachment systems for faster disc changes

TYPE TS (TYPE II)
