

PART NUMBER

Carbo Attachment Tape Adhesion Promoter
055395**53395**

PACKAGE SIZE

4 oz. (118.5 ml)

DESCRIPTION

Carborundum Attachment Tape Adhesion Promoter is a liquid primer to improve the adhesion of Carbo Automotive Attachment Tapes to exterior and interior trims involving injection molded and/or plastics. The convenient dauber style container neatly dispenses the ideal amount of product for optimal adhesion.

APPLICATION

1. The bonding surfaces should be clean and dry. Clean part and contaminated surfaces with an untreated, lint-free cloth and a water-based cleaner. Follow product safety precautions.
2. Apply a thin, uniform coating of the adhesion promoter to the part before applying the Carbo Automotive Attachment Tape to the part.
3. Although dry times may vary due to temperature and humidity, a dry time of five minutes is generally required.*
4. For best results apply Carbo Automotive Attachment Tape to part immediately after adhesion promoter dries, or no more than 24 hours after primer application.
5. Make sure the primer surface is free from contaminants before applying Carbo Automotive Attachment Tape.
