CARBORUNDUM

CARBO™ MEDALIST™

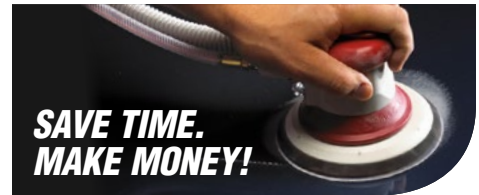

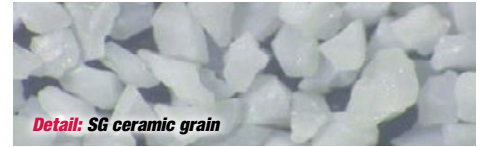

SANDING DISCS AND ROLLS

FEATURES & BENEFITS

- SG ceramic grain has a faster cut rate, is more durable, and lasts longer, especially in tougher sanding applications
- SG blend of grain for entire grit range allows maximum performance for all grits
- Unique fiber-reinforced latex/paper backing is flexible and easy to work with and has maximum tear resistance

CARBO MEDALIST: THE FUTURE OF SANDPAPER IS NOW!

Carbo Medalist allows you to get the most out of your abrasive products and maximize your shop's efficiency. Utilizing our SG ceramic alumina grain, we offer a quicker cut that outlasts conventional abrasives. The zinc stearate allows Carbo Medalist to resist loading so it will continue sanding faster through its extended life. This technology is available on the entire grit range; the only product on the market that can make this claim!
